

Silver Shield with Aqua Sol Technology

118 mL (4 fl. oz.), Natural Antibiotic, Stock No. 4276-4

With the increase in both antibiotic-resistant germs and infectious diseases posing a threat of epidemic proportions in North America, Silver Shield may become the only disinfecting solution capable of reducing the length and severity of virtually any type of bacterial infection. Silver Shield is being heralded as the most powerful, virtually non-toxic, natural disinfecting antibiotic available.

Silver Shield is known to destroy over 650 disease-causing organisms, including the bacteria that cause diphtheria, pneumonia, typhoid, and various types of food poisoning.

Did you know?

Silver compounds have been used medicinally for centuries. Greek and Roman societies stored liquids in silver-lined containers to keep them fresh. American settlers traveling west would put a silver dollar in milk to delay its spoiling.

The use of silver as medicine was widespread until World War II when antibiotics became the standard treatment for infections. However, due to overuse, many pathogenic organisms are becoming resistant to antibiotics. Recently, silver has been reintroduced as a natural alternative to fight bacterial infections at early stages of illness.

Research indicates that Silver Shield (with Aqua Sol Technology) is an effective immune system booster, discouraging the growth of unwanted invaders. Silver Shield is an effective

alternative to other products on the market.

NSP Advantage

118 mL (4 fl. oz.). Natural Antibiotic.

Silver Shield disables the specific enzyme that many unwanted microorganisms need to metabolize oxygen (breathe). When this enzyme becomes disabled, the microorganisms cannot thrive. NSP Silver Shield has been effective against unwanted microorganisms when tested *in vitro*.

Silver Shield is processed by the kidneys and may not affect populations of beneficial bacteria in the colon.

Silver Shield uses only the finest particle-size colloids to ensure maximum bioavailability and efficiency. It is completely non-toxic and is free of heavy metal contamination.

Ingredients: Medicinal Ingredient: Each teaspoon (5 mL) provides 90 mcg of pure silver in colloidal form (colloidal silver solution, 18 ppm). Non-medicinal ingredient: deionized water

Recommendation: Take one teaspoon (5 mL) with a meal three times daily.

Risk information: Do not take if you are pregnant or breastfeeding. Consult your health care practitioner prior to taking this product if you are taking thyroid medication or any other antibiotics. Do not discontinue use of any prescription medication without your doctor's knowledge.

Features & Benefits

- Provides powerful support to the immune system. Helps destroy numerous pathogens including bacteria, parasites, viruses, and fungi including yeast.
- Helps alleviate inflammation (ears, eyes, nose, and throat).
- Silver has traditionally been used for acne, ear infections, eczema, herpes, shingles, sinus infections, colds, flu, measles, epilepsy, tonsillitis, tetanus, rheumatism, and wounds.
