

Blood Pressurex

60 capsules, Herbal Combination, Stock No. 554-8

Cardiovascular health is the number one health concern and the leading cause of death in Canada. One of the factors implicated in the development of cardiovascular disease is high blood pressure.

Blood Pressurex contains a blend of natural ingredients that can help your body maintain blood pressure levels already within the normal range.

Did you know?

The heart pumps blood to all parts of the body under controlled pressure. An individual is diagnosed as having high blood pressure when an average of two or more consecutive measurements of systolic (higher number) pressure exceeds 140 mm Hg; or the average of two or more consecutive diastolic (lower number) pressure exceeds 90 mm Hg.

NSP Advantage

60 capsules. Herbal Combination.

Many supplements for hypertension target only one or two underlying functions. Blood Pressurex targets many underlying functions to provide maximum support and efficient control.

The main ingredients of this formula are the powerful herbs *Coleus forskohlii*, olive leaf extract, hawthorn extract and golden rod; the amino acid arginine; and the potent antioxidants vitamin E and grape seed extract. These combine to help inhibit cell damage (potent antioxidant properties), support and maintain blood vessels, encourage optimal blood flow, promote blood flow in the peripheral arteries and help to maintain normal blood viscosity.

Ingredients: Each capsule contains 100 mg standardized olive leaf extract; 90 mg Golden rod; 80 mg L-arginine; 70 mg standardized *Coleus* root extract; 30 IU vitamin E (from soybean oil); 40 mg Hawthorn berries extract; 6 mg standardized grape seed extract. Non-medicinal ingredients: gelatin, magnesium stearate (vegetable source), silicon dioxide

Recommendation (adults only): Take one capsule with a meal three times daily.

Risk information: Do not take if you are pregnant or breastfeeding. Consult your health care practitioner prior to taking this product if you have high blood pressure or are taking prescription medication, particularly for heart conditions or high blood pressure. Do not discontinue use of any prescription medication without your doctor's knowledge.

Goldenrod may cause allergic reactions in individuals sensitive to the Asteraceae/Compositae (daisy) family.

Features & Benefits

- Provides potent antioxidant properties that help inhibit damage to cells.
- Supports and maintains blood vessels.
- Supports blood vessel relaxation to promote optimal blood flow.
- Promotes blood flow in the peripheral arteries.
- Helps maintain blood viscosity that is already within the normal range.
