

HistaBlock

90 capsules, Herbal Combination, Stock No. 776-1

Many people suffer from allergies triggered by indoor and outdoor substances. These allergens include, but are not limited to, pollen, dust, mold, pet dander, certain foods, certain medicines or vaccines, personal care products, and environmental pollutants. An allergic person will react to these substances with one or more of these symptoms: increased mucous production causing upper respiratory congestion, sneezing, coughing, inflammation, rash, itching, or hives. This formula is a remedy for allergy season and may benefit asthma patients. It can be used for colds, flu, runny nose and conditions of excessive phlegm. HistaBlock controls inflammatory immune response.

Did you know?

HistaBlock is a blend of Stinging Nettle with nutritional supplements to promote respiratory health and prevent allergic and inflammatory reactions. Stinging Nettle provides support against allergic rhinitis in hay fever sufferers. Quercetin, a bioflavonoid, is believed to stabilize mast cells, which contain the histamine released during an allergy attack. This formula provides antioxidant strength to maintain stable mast cells and support the

body's efforts in maintaining normal mucous membranes, keeping nasal passages open. Bromelain works as an anti-inflammatory to help reduce the swelling of mucous membranes. Bitter orange helps the body's natural decongestant processes open up the airways and reduce runny nose and watery eyes.

NSP Advantage

90 capsules. Herbal combination to support free breathing and reduce unpleasant symptoms associated with allergies.

Ingredients: Each capsule contains a blend of 585 mg of the following:

Medicinal Ingredients: Stinging nettle (*Urtica dioica*) leaves; bitter orange (*Citrus aurantium*) fruit; bromelain (from pineapple [*Ananas comosus*] fruit; quercetin dihydrate (from fava bean)

Non-medicinal ingredients: Dicalcium phosphate, microcrystalline cellulose, magnesium stearate, silicon dioxide, gelatin capsule (gelatin, water)
