

ULC-R+

60 capsules, Herbal combination, Stock No. 917-9

Recent scientific studies determined *Helicobacter pylori* bacteria is the primary cause of ulcers and found this herbal combination has a strong inhibitory action against

Helicobacter pylori bacteria. *H. pylori* infection is also thought to be responsible for other gastrointestinal disorders including gastric cancers.

ULC-R+ contains five herbs that support healthy digestive function.

Did you know?

In the last decade, researchers have come to agree that gastric ulcers, once thought to be caused by stress and related excess acid, are actually caused by a bacteria now known as *Helicobacter pylori*.

Nature's Sunshine spent two years of intensive research evaluating the properties of various herbs to create this unique natural formula designed to inhibit the growth of dangerous *H. pylori* bacteria in the digestive system.

NSP Advantage

60 capsules. Herbal combination.

Ingredients: proprietary blend of DGLE (deglycyrrhizinated licorice root extract) (*Glycyrriza glabra*), Pau D'Arco (*Tabebuia avellanedae*) bark concentrate, clove (*Eugenia aromatica*) flowers concentrate, Inula racemosa root extract, lecithin, cellulose and capsicum (*Capsicum annuum*) fruit.

Recommendation: Take 2 capsules with a meal twice daily plus 2 capsules at bedtime with 250 mL of water.

Features & Benefits

- Pau d'arco, clove powder extract and Inula racemosa help inhibit the activity of *Helicobacter pylori* bacteria, while safely leaving friendly bacteria uninhibited in the intestinal tract.
- DGLE helps soothe stomach irritation and associated discomfort caused by *Helicobacter pylori* bacteria.
- DGLE and capsicum promote healing.
- Helps alleviate inflammation.
- Unlike prescription or over-the-counter antacids, it does not cause unwanted side effects such as nausea, diarrhea, or possible liver damage.
